Quick Installation Guide:

Nuristani Kalaṣa alā Keyboard for Windows

Step 1:
Download the Installation Package
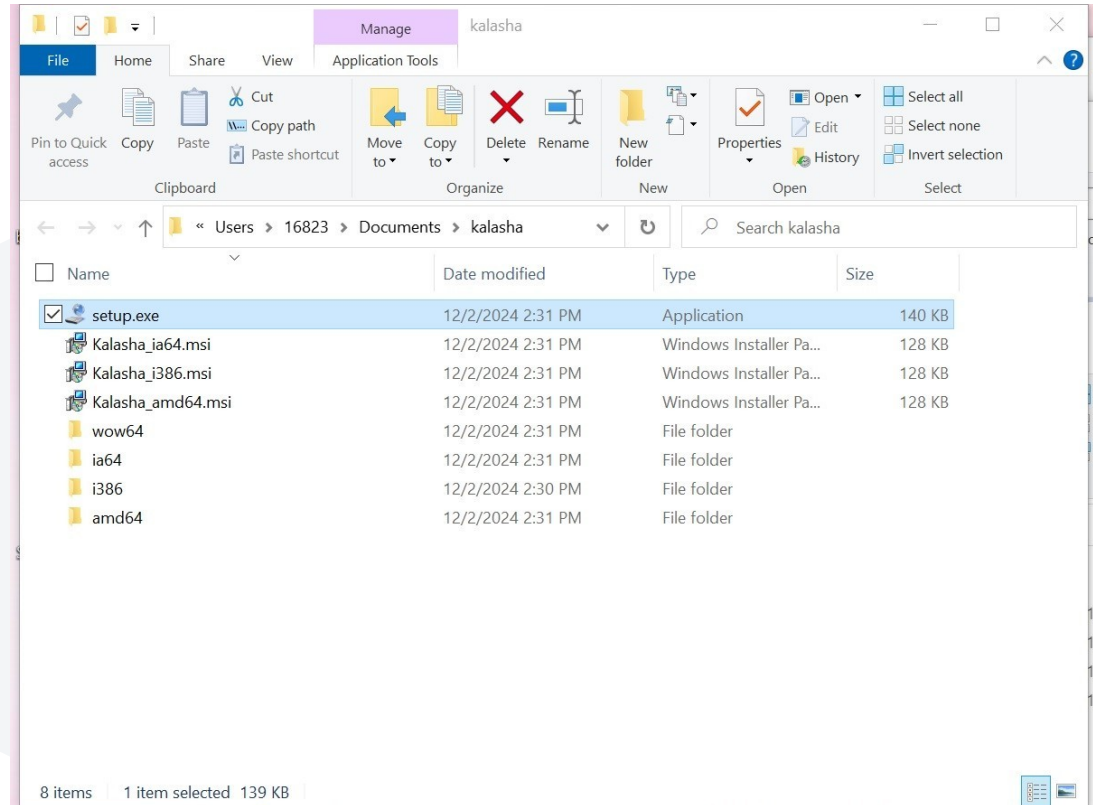

Download and save the package from the following
Link:

https://nuristani.info/keyboards

If you have already downloaded the file go to step 2.

Step 2:
Run the Installer

- Locate the file named "setup.exe" in the downloaded package.

- Double-click on the "setup.exe" file to start the installation process.
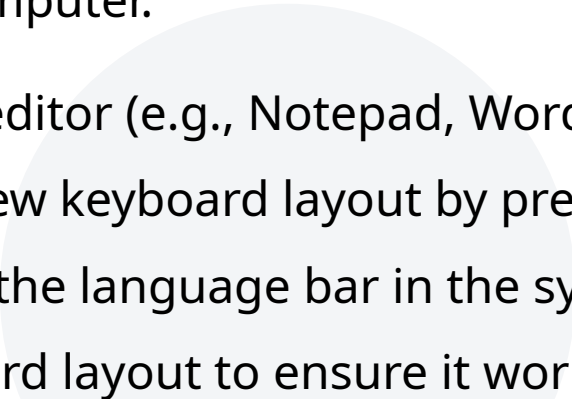

Step 3:
Follow the Installation Wizard

A setup wizard will appear. Follow the on-screen instructions:

- Leave the installation location as the default.

- Click "Install" to proceed.

- If prompted, allow the application to make changes to your device by clicking "Yes" in the User Account Control (UAC) dialog box.

- Wait for the installation to complete. This process may take a few moments.

Step 4:
Restart Your Computer and test keyboard

- Once the installation is complete, You will need to restart your computer.

- Open any text editor (e.g., Notepad, Word).

- Switch to the new keyboard layout by pressing Win + Space or using the language bar in the system tray.

- Test the keyboard layout to ensure it works correctly.

Troubleshooting Tips

- If the installation fails, ensure you have administrative rights on your computer.

- Verify that the setup.exe file is not blocked by your antivirus or firewall software.

- If the keyboard layout is not visible in the settings, restart your computer and try again.

Thank you
